

# 1-068 Pull Latch Handle

Hand operable, Push to close

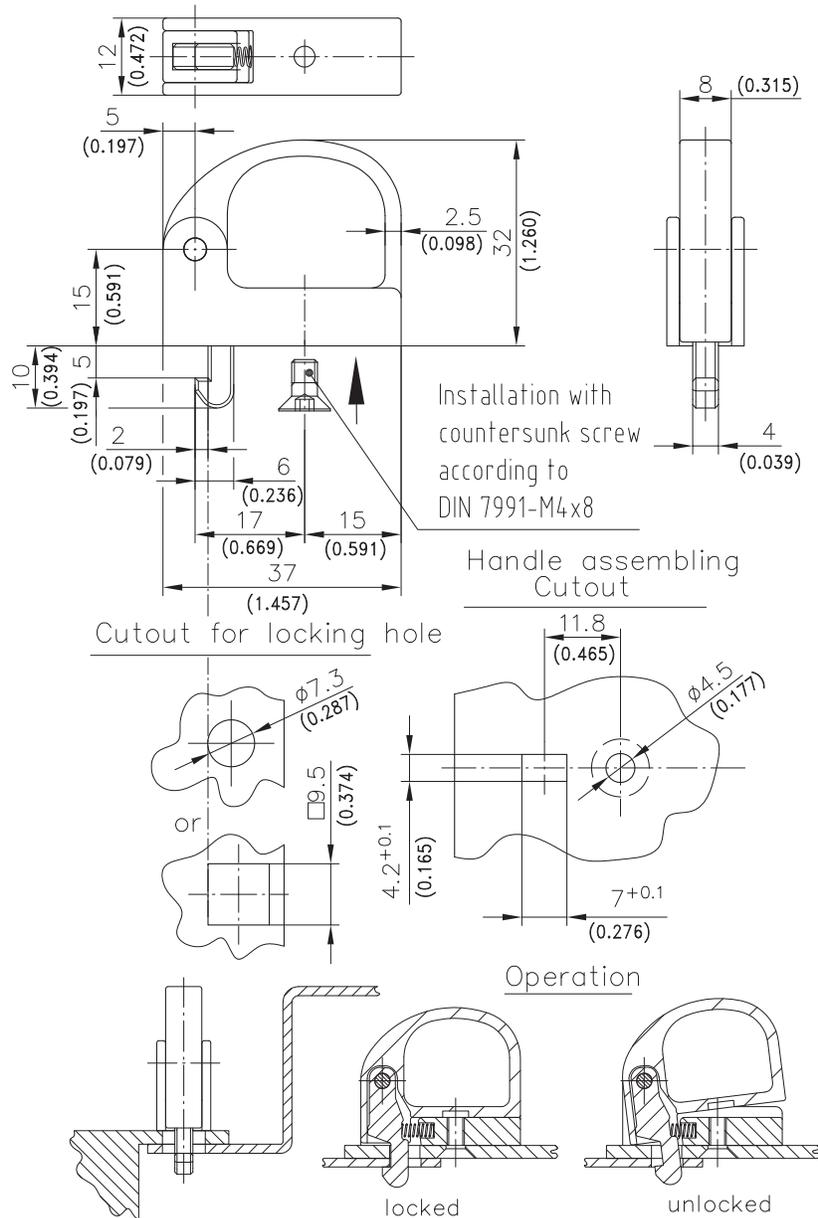

## Product Notes:

- Fastens to panel with countersunk M4 screw
- LH and RH application
- When inserted into the panel the free running hook latches into the cutout and fastens the panel to the frame
- By pulling the handle, the hook is disengaged from the cutout and the panel can be pulled out

## Material:

- **Housing and handle:** Zinc Die, Matt Chrome Plated
- **Spring for insert:** Spring Steel
- **Hook:** Sintered Steel, Zinc Plated
